ABOUT ME

Frontend Developer specializing in cross-platform mobile and web applications using React Native, Next.js, React and TypeScript. Passionate about designing and delivering scalable, maintainable solutions and intuitive user experiences. Eager to bring my strong problem-solving skills and collaborative—Agile-driven approach to a forward-thinking team.

EXPERIENCE

Frontend Developer (Web & Mobile)

Charii mobile app
- As Frontend Developer (Cross-Platform) on Charii, I built the core crowdfunding flow ,including campaign creation (launch/edit), project backing, comment-on-post real-time updates, and email/password + token-based authentication. I also managed the Play Store build and deployment.
  Technologies Environment : React native expo, Tailwind CSS, react query

Charii web & Charii Dashboard
- As Frontend Developer on Charii Web, I built the UI for campaign discovery, support tickets, withdrawal workflows (Fixed/Flexible), and company profiles, plus the admin dashboard with data tables and analytics—integrating REST APIs for full functionality.
  Technologies Environment : Next.js, React, React Query, Tailwind CSS, REST APIs.

Sep 2023 - Present
DREAMSLAB

Loyalty Platform(AJIUM)
- As Loyalty Team Lead (promoted after Phase 1), I implemented wallet-connect authentication, reward-redeem requests, token withdrawals, and QR-scan earning; on the admin dashboard, I added product QR code generation and a review/verify flow for redemption requests.
  Technologies Environment: TON network, TypeScript, NextJS, ReactQuery. Tailwind CSS

- Mentored interns and apprentices, conducted structured code reviews, established coding standards, and supported onboarding to the technology stack.

Intern Mobile Developer

- Designed and implemented UI for "PheasitKhmer" and "CashApp" using React Native; converted Figma designs into responsive, production-ready screens.
- Integrated navigation and state management with Redux; ensured smooth animations and consistent user experience.
- Coordinated with product owners to prioritize features and deliver two production-ready apps within a two-month internship.

Jan 2023 – Mar 2023
PHSARTECH

Technologies Environment: TypeScript, React Native Expo

EDUCATION

2021 - 2024
Beltei International
University

Bachelor of Information Technology and Science
Completed a 4-year major in Software Engineering & Computer Science.

SKILLS

Languages
· JavaScript , TypeScript, Dart

Front-End / Frameworks
· React, Next.js, React Native, Flutter

Backend
· Basic NestJS / Prisma / PostgreSQL
· Built simple CRUD endpoints—no production deployments

SOFT SKILLS

- Problem solving
- Critical Thinking
- Teamwork
- Communicate
- Time management
